Fill-Up Extra Column with DMS Variables

The screenshot shows the 'Inventory Tracker' application window. The main window displays a list of inventory items with columns for Tag, GID, Entry Code, Source, Design, and Group Name. Below the list, there are fields for 'Inventory Filter', 'Location', and 'Inventory Units'. A dialog box titled 'frmRetDMS1' is open, showing a 'Study' dropdown set to 'Study'. The dialog contains a table with columns for 'LT Tray No 024' and 'Parcel'. A 'Variate' button is visible. A red circle highlights the 'Add Extra Column' and 'Fill With DMS Data...' options in the dialog's button area.
